RIOLIS®

CROSS-STITCH KITS

CATALOGUE №3

RIOLIS

CATALOGUE №3

Dear friends,

The company “RIOLIS” was found in Russia in 1996 and it became my favorite activity for many years right away. Everything started with a few models and painstaking work on them. Step by step, the persistent belief in success and devotion to the way selected begun to pay off: number of cross stitching fans increased more and more, we have gained regular customers. At present, the company employs a close-knit professional team. More than a thousand

of original models were produced under the brand name “RIOLIS”: “RIOLIS Premium”, “Create it yourself” (*Собери Сама®*).

The matter that the RIOLIS kits became very popular in the European countries I consider as a special achievement. Sales are also undergoing active development in other parts of the world- Japan, Australia, Canada and even in Malaysia.

We are constantly working on subjects for our new sets, the latter of which can be seen and appraised in the present catalogue. Besides cross-stitching kits, there are ribbon stitching kits, partial embroidery and bead embroidery kits. In the catalogue, the works are placed in accordance with the thread contained embroidery floss or wool. An alphabetical index (page 126) which will greatly simplify the search is contained for convenience's sake.

I hope that ideas of the artist will inspire you for new hand-made creation, that your favorite thing to do will help you to gain harmony and inner peace, that the embroidered pictures will bring a lot of positive emotions.

Why don't you start embroidering right now?

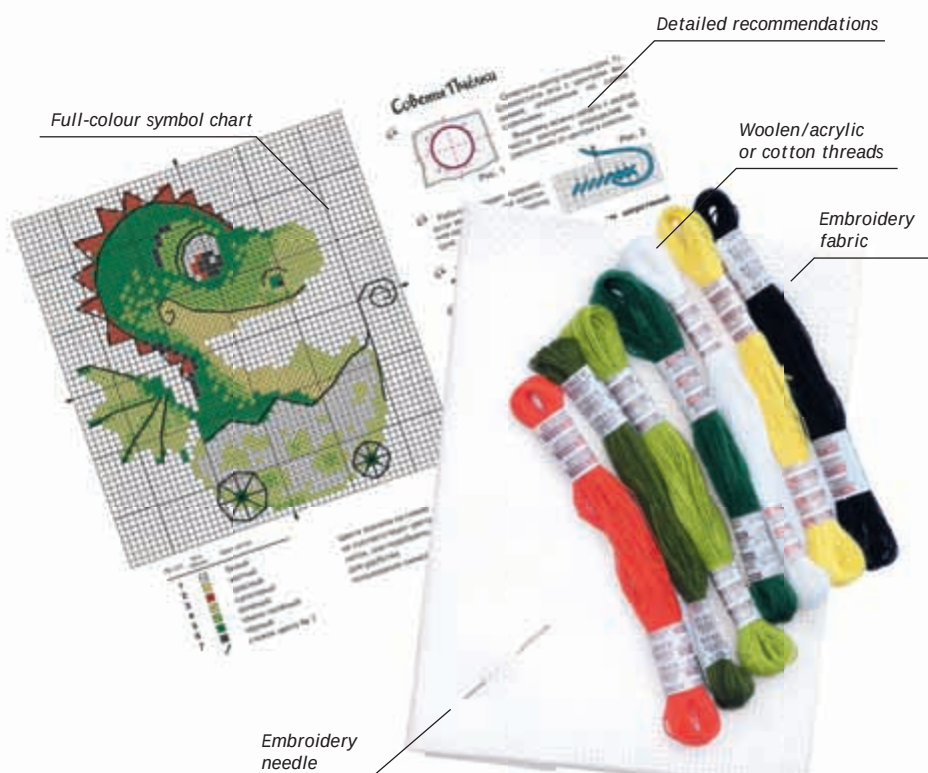

With respect to you and your favorite hobby

We introduce a series of plots carried out on a uniform count fabric Lugana Zweigart T25 (100 threads per 10 cm). Articles embroidered on the fabric look extremely refined and delight with their elegance. Among the developments, there are some landscapes, still lifes as well as a zigugu (a needle cushion of a square cloth with the corners folded to the center) and a biscornu (a needle cushion made of two squares of cloth turned though 45 degree to each other).

WHY DO WE USE WOOL

Most of Cross Stitch Kits created by RIOLIS contain woolen/acrylic threads. There is a certain reason why do we use woolen/acrylic threads as a basic material for our designs. Back to traditions and in accordance with our practical experience, we have assured ourselves of outstanding quality of this material.

- As history says, the first known embroideries were made with woolen threads. Ancient stitched ornaments were thought to protect the house from evil spirits and women also decorated clothes with it.
- Woolen/acrylic threads are very smooth to the touch. It is easy to stitch even if you are inexperienced in such kind of handiwork, and stitches lay tight providing soft and matte surface.
- Embroidery with woolen/acrylic threads have more 3D effect than stranded cotton threads.
- Different decorative elements with wool embroidery make your house look stylish and cozy.
- The whole palette of dark colors of woolen/acrylic threads is very deep and saturated. So there are some designs such as animals and landscapes which look more attractive, vivid and very close to the original.
- Woolen/acrylic threads as opposed to stranded cotton perfectly suit for working on 11 and below count fabric, so people having bad eyes and kids can also enjoy cross-stitching.
- Modern technologies gave an opportunity to improve the quality of wool raw materials adding acryl to woolen yarn. Our woolen/acrylic threads are more abrasion resistible, better preserve the color and less allergenic.

Russian embroidery fans really enjoy RIOLIS cross stitch kits with woolen/acrylic threads. You will enjoy them, too!
