Dear friends! We are glad you have a new RIOLIS catalogue 2013 in your hands. Company RIOLIS has been in the market for 16 years and during this time

has gained a lot of experience. Throughout the entire period of company's existence, we have been continuously studying the needs of the customers to make your stitching hobby more interesting.

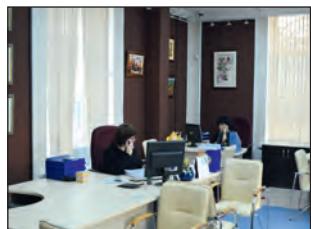

Our hard work has paid off and we are happy that our export activity received a big feedback from final customers. They have evaluated interesting designs, high quality of the schemes, packaging, and extra threads inside the kits. Today our kits are known not only in all European countries, but also in the USA, Brazil, Canada, Australia, Turkey, South Korea, Vietnam, Thailand etc.

During 2012 we had 2 big projects.

Completely relocating the main RIOLIS factory from Moscow to Ryazan to bigger premises of 2000 sq.m.

The opening of a new, modern and beautiful office in Moscow.

As always, RIOLIS pays a lot of attention to the quality of the materials in the kits. That is why from 2012 we started changing canvas in our new and earlier released kits to Zweigart fabric which is well known for its excellent quality. This fabric is specially designed for company RIOLIS, taking into account characteristics of embroidery both with our Italian wool/acrylic and Anchor stranded cotton threads. As always we have created a lot of new designs to satisfy the different tastes of stitchers - motifs of animals, flowers, landscapes and many others. To get amazing results, we added the ribbons, beads and other decorative elements to the kits.

In this catalogue you will find our range of kits for children and beginners - Happy Bee, which we introduced last year and will increase this year.

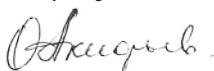

RIOLIS main activity is cross stitch kits, but we are always looking for the new way to use it. For the first time in our assortment you will find kits with felt. You will find them in the pages of 28. Why have we chosen those materials? Felt is an excellent, warm and cosy material. Also, it is easy and pleasant to work with it. There are a lot of possibilities to create interesting and beautiful things from felt. In this case we added cross stitch to finish it.

Let's stitch and create together with RIOLIS kits!

With compliments to you and your lovely hobby,

Founder of the company,

O. Akifjev

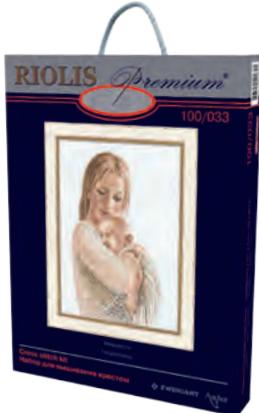

General Manager

The standard embroidery kit contains: full colour chart, embroidery fabric, threads and embroidery needle. If the work needs to be done with beads or ribbons, the kit contains all the required materials and also a needle for beads is included. More complicated designs contain an organiser with thread colour samples. The packaging always indicates the contents of the kit. The frame shown on the cover is not included in the kit. The size of finished work of every design is written in the catalogue. We recommend choosing the frame after finishing the embroidery because there might be slight changes in the size due to characteristics of the materials.

It is known that the initial letter in the art of publishing is a large capital letter, distinct from others. These letters are usually decorated with ornaments and miniatures, executed in different techniques. Although these letters are traditionally used in books, we suggest embodying your own letter in embroidery. The letter in an elegant design decorated with golden thread and beads will be a symbol of your name, the name of a loved one or a familiar character.

WHY DO WE USE WOOL

Most of Cross Stitch Kits created by RIOLIS contain woolen/acrylic threads. There is a certain reason why do we use woolen/acrylic threads as a basic material for our designs. Back to traditions and in accordance with our practical experience, we have assured ourselves of outstanding quality of this material.

- As history says, the first known embroideries were made with woolen threads. Ancient stitched ornaments were thought to protect the house from evil spirits and women also decorated clothes with it.
- Woolen/acrylic threads are very smooth to the touch. It is easy to stitch even if you are inexperienced in such kind of handiwork, and stitches lay tight providing soft and matte surface.
- Embroidery with woolen/acrylic threads have more 3D effect than stranded cotton threads.
- Different decorative elements with wool embroidery make your house look stylish and cozy.
- The whole palette of dark colors of woolen/acrylic threads is very deep and saturated. So there are some designs such as animals and landscapes which look more attractive, vivid and very close to the original.
- Woolen/acrylic threads as opposed to stranded cotton perfectly suit for working on 11 and below count fabric, so people having bad eyes and kids can also enjoy cross-stitching.
- Modern technologies gave an opportunity to improve the quality of wool raw materials adding acryl to woolen yarn. Our woolen/acrylic threads are more abrasion resistible, better preserve the color and less allergenic.

Russian embroidery fans really enjoy RIOLIS cross stitch kits with woolen/acrylic threads. You will enjoy them, too!
